

# A Citizen's Perspective

*A Monthly Forum to Discuss Current Issues*

**Monday March 12**

**7:30 – 9pm at the Tredyffrin Library**

**582 Upper Gulph Road, Wayne**

## *How to Move Tredyffrin Township to a Clean Energy Future*

Climate change is a global phenomenon; however, the solutions are local. This is where we as citizens can make a difference. Working with the Tredyffrin Township EAC Clean Energy Subcommittee, we aim for a Township approved resolution to move our community to 100% renewable electricity by 2035 and 100% renewable for heating/cooling & transport by 2050. Other local municipalities have already signed similar resolutions.

The time to act is now. The technology is here and the finances work in our favor. In this presentation, we will discuss the purpose of a resolution, the steps to take after the resolution, previous work done in Chester County and individual steps you can take now.

Please join us as Rutger Boerema (MSC Environmental Management) and Jennifer Cox, both with the Sierra Club “Ready for 100” Campaign, lay out the proposition for your input.

We have the room starting at 7pm, so, please come a few minutes early for some casual discussion.

Please feel free to share this invitation broadly—all are welcome. We hope you can join us...and bring a friend or two.

Any questions, please contact Jerry Henige, [jhenige@verizon.net](mailto:jhenige@verizon.net), 610 341-0756
